## DC5G The Path to Commercialization

November 12 - 13, 2018 | Washington D.C.

DC5G welcomes enterprise markets, local municipalities, telcos, satellite service providers, policy makers and innovative adopters to learn about the potential of the future 5G-connected ecosystem. 5G will begin its massive rollout in 2020, providing significantly faster connectivity speeds that will power connected devices, deliver data-heavy video services at near real-time speeds and push commercial and enterprise markets into a long-awaited golden age of the Internet-of-Things.
